**MEDIA ALERT**

**INNOMEDIA TO SAVE LONG DISTANCE RELATIONSHIPS**

**WHO:** InnoMedia™ is a leading provider of IP telephony and videoconferencing appliances, business solutions and services.

**WHAT:** InnoMedia is announcing its first ever Valentine's Day contest for individuals in long-distance relationships. Contestants are being asked to submit an essay identifying the distance that separates them from their sweetheart, and why seeing him/her this Valentine's Day will make all the difference in their relationship. Entries will be accepted until Midnight (PST) on Feb. 10, 2001, when a panel of "love experts" will decide which story is the most compelling and award the writer with two **InfoView® videophones** (\$699.90 value) in time for Valentine's Day. In addition, the winning entry will be posted on the InnoMedia website.

**HOW:** To enter, simply complete the entry form and submit an essay of 500 words or less on the topic of "How two InfoViews could save my relationship this Valentine's Day" at [www.innomedia.com/valentine](http://www.innomedia.com/valentine). In lieu of an online entry, mail your essay to: Valentine's Day Contest, InnoMedia Inc., 90 Rio Robles, Suite 100, San Jose, CA 95134. (Contestants must be 18 years or older and a resident of the US to enter). Complete contest rules and regulations can be found on InnoMedia's website.

**ABOUT INFOVIEW**

The InfoView combines a regular television and standard telephone line to create an affordable personal videophone for use in both the home and office. InfoView is easy to install and easy to use. The device can connect with another InfoView or any H.324-compliant standalone or PC-based videophone to establish point-to-point visual communication.

Half the size of a VCR, the InfoView integrates a high-quality CCD camera with a modem to transmit and receive audio and video simultaneously over a regular phone line. InfoView does not require a personal computer, special phone lines, or extra fees. Advanced features include the ability to remotely zoom, pan or tilt and to automatically answer and activate a remote InfoView.
