FOR IMMEDIATE RELEASE

INNOMEDIA INTRODUCES INFOTALK 7 TO ITS INFOTALK FAMILY

InfoTalk 7 offers low cost, high quality Internet calls to any regular telephone in the world, with appliance-to-appliance calls at even greater savings.

Singapore and Milpitas, CA – Jan 16, 2003 - InnoMedia™, a leading supplier of Internet and broadband access IP telephony solutions, today announced the addition of InfoTalk 7 to its family of InfoTalk appliances. InfoTalk 7 allows users to place low cost, high quality Internet calls to any regular phone or cellular phone around the world using InnoSphere™, InnoMedia's Global IP Telecommunications network that provides service coverage to over 200 countries.

Targeted at the mass market, InfoTalk 7 is a standalone Internet appliance that works over the Internet without the need of a personal computer. Besides allowing users to make calls from the InfoTalk 7 to any regular phone or cellular phone, the InfoTalk 7 can also place calls to another InfoTalk 7 at even lower connection charges.

InfoTalk 7 comes with a built-in 122x32 dot matrix LCD message display, built-in telephone line interface, audio jack to speaker, RS232 host interface, and Local/Remote phone DTMF detection in a compact 4.92 x 6.49 x 1.77 in (125 x 165 x 45 mm) housing.

The key features and benefits of InfoTalk 7 include dramatic communication cost savings, coverage anywhere in the world, portability – ideal for business travelers and vacationers, high voice quality through its unique quality-tuning feature that automatically adjusts itself to maintain voice integrity, Address Book, Auto Dialing, Caller ID, Call Waiting, Call Records, Call Blocking and Convenient Upgrade, amongst others.

“By adding InfoTalk 7 to the InfoTalk family, we have broadened the portfolio of our CPE devices. InfoTalk 7 will appeal to both business and home users. The portability of InfoTalk 7 means that business users can use it to communicate on the go. Users will also like the intuitive user interface, the low InnoSphere rates and even more economical device-to-device calling.” said Dr. Nan-Sheng Lin, president and co-founder of InnoMedia.

The system requirements for InfoTalk 7 include a standard analog telephone, a direct PSTN phone line, a dial-up Internet access that supports PPP and a valid InnoSphere account.

Pricing and Availability

The InfoTalk 7 is available immediately. For inquiries, please contact sales@innomedia.com.

About InnoMedia

Founded in 1995, InnoMedia is a privately held multinational organization with operations in the United States, Singapore, Taiwan and China.
