## InnoMedia Gives Cable Operators a Real Edge in the Enterprise Voice Market *with 4 and 12 port business class EMTAs*

**Milpitas, CA — September 11, 2006--** InnoMedia™, a leading supplier of Internet and broadband access IP telephony solutions, today announced a new line-up of Embedded Multimedia Terminal Adapters. InnoMedia EMTAs are engineered specifically for cable operators to offer high quality primary line voice and Broadband Internet services to business customers.

Designed for DOCSIS 2.0 cable networks, InnoMedia's EMTA is an embedded multi-voice port MTA device that offers MSOs an excellent opportunity to deliver telephony services to their enterprise markets. It provides a rich set of business features including ground start and loop start for business PBX's, foreign voltage detection to allow house wiring and prevent accidental connection of house wires to live PSTN, T.38 and G.711 fallback fax support, reliable Bell103/212A modem transmission for credit card reader information transaction, and RJ11 DC open loop for loss of voice link indication to allow alarm triggering.

The InnoMedia EMTA works with PacketCable provisioning, 16 SIDS, and a wide variety of call features including Caller ID, Call Waiting, Call Forwarding, Call Return, Caller ID Blocking, Call Trace, Automatic Callback, as well as device based 3-way calling. A UPS port allows external batteries to be used to offer primary line voice services.

"InnoMedia EMTAs are unmatched in quality and sure to meet the needs of the enterprise market," said Shailesh Patel, Senior Director of Product Management, InnoMedia, Inc., "We've taken a very direct approach to servicing MSOs with products designed specifically for them. Cable operators no longer have to settle for enterprise products that may not provide all the business features they need or which may be too expensive."

### **Availability**

InnoMedia 4-port EMTA 3528-4e is immediately available directly from InnoMedia. The 12-port EMTA 6528-12 will be available in October. Please visit us at the Fall VON expo in Boston or contact us at sales@innomedia.com
