InnoMedia Provides Cable Operators with Complete Primary Line Solution

With newly available external Battery Backup

San Jose, CA — May 7, 2007-- InnoMedia^{TM}, a leading supplier of Internet and broadband access IP telephony solutions, today announced a new Uninterrupted Power Supply (UPS) available with any InnoMedia residential or business class Embedded Multimedia Terminal Adapter (eMTA).

The new eUPS 1230, is designed to work in conjunction with InnoMedia's current line of eMTA's, to maintain service in case of power failure, for up to 3.5 hours and 5 hours for a 12-port eMTA (InnoMedia MTA 6528-12) and a 4-port eMTA (InnoMedia MTA 3528-4e), respectively.

"We are excited to offer our Cable Operator customers the external UPS needed for primary line voice services," said Shailesh Patel, Sr. Director of Product Management at InnoMedia. "The addition of a UPS to our product line ensures complete solution availability and optimal delivery schedules, and again demonstrates InnoMedia's reputation of being responsive to customer needs."

About InnoMedia eUPS 1230

The eUPS1230 is a 12V DC UPS, providing 9 Amp-Hours of high battery capacity and 30 Watts of maximum power. It features a field replaceable fuse designed to protect the unit from short-circuits, and offers complete PacketCable telemetry signals required for remote battery status monitoring. For ease of installation, a stackable power cord is bundled with the unit.

About InnoMedia eMTA's

InnoMedia offers eMTA's in 2, 4 and 12 ports. Designed for DOCSIS 2.0 cable networks, the InnoMedia eMTA is an embedded multi-voice port MTA device that allows Cable Operators to deliver telephony services to their target markets. The InnoMedia eMTA works with PacketCable provisioning, 16 SIDS, and a wide variety of call features including Caller ID, Call Waiting, Call Forwarding, Call Return, Caller ID Blocking, Call Trace, Automatic Callback, as well as device based 3-way calling.

InnoMedia's residential eMTA 6528-2 is a reliable, interoperable, feature-rich, and cost-effective DOCSIS™ 2.0 ready device. The eMTA 6528-4 and eMTA 6528-12 for enterprises, offer a rich set of business features including ground start, loop start and OSI: 900ms open loop for PBX disconnect; Fax support with T.38 and G.711 fallback; and Modem support with high speed modem pass through (v.34 and V.90) and low speed modem (Bell 103, 212) for credit card reader transactions. These products are also equipped with NCS and SIP for PacketCable 1.0, PacketCable Multimedia, and PacketCable 2.0

Availability
